1. General Information and Scope of Application

Requirements of the Regulation (EU) No 2019/2033

The information below is disclosed in accordance with the Part Six of the IFR, Section 50(1)(f) of Law 165(I)/2021 of the CySEC for the Prudential Supervision of Investment Firms, which harmonises the IFD with local legislation and the Commission Implementing Regulation (EU) 2021/2284 laying down implementing technical standards for the application of Regulation (EU) 2019/2033 with regard to supervisory reporting and disclosures of investment firms.

The information that the Company discloses herein relates to the year ended 31 December 2024.

Principal Activities

Prochoice Chrimatistiriaki Ltd was incorporated in Cyprus 7th May 2008 as a private limited liability company under the Cyprus Companies Law, Cap. 113. The Company has applied for and obtained a license with Number 100/09 in July 2009 from the CySEC to operate as a Cyprus Investment Firm and has a LEI code of 213800AXCQ9J9EVHNP33.

Also, the company is a member of the Cyprus Stock Exchange (CSE) and a distant member of the Athens Stock Exchange (ASE).

Currently, the Company has a license to offer the following investment and ancillary services based on the applicable laws and regulations of the period under review:

Investment Services
Reception and transmission of orders in relation to one or more financial instruments
Execution of Orders on Behalf of Clients

Ancillary Services
Safekeeping and administration of financial instruments, including custodianship and related services
Granting credits or loans to one or more financial instruments, where the firm granting the credit or loan is involved in the transaction
Foreign exchange services where these are connected to the provision of investment services
Investment research and financial analysis of other forms
Investment services and activities as well as ancillary services where these are connected to the provision of investment or ancillary services

The Company is operating online through its Online Trading Platform at the website www.pro-choice.com.cy.

Disclosure Policy

The disclosures included in this Report are made on a solo basis and are published annually. This Report should be read in conjunction with the audited financial statements of the Company for the year ended 31

December 2024 which are prepared in accordance with the International Financial Reporting Standards (“IFRS”).

Unless stated otherwise, all amounts are in thousands of Euro (“€” or “EUR”) which is the functional currency of the Company.

Prudential Framework

The applicable framework for Investment Firms, came into force on 26th June 2021, is comprised by the prudential rules set by the EU Regulation 2019/2033 on the prudential requirements of investment firms (“Investment Firm Regulation” or “IFR”) and the EU Directive 2019/2034 on the prudential supervision of investment firms (“Investment Firm Directive” or “IFD”) – harmonized through the issuance of the Cyprus Law on the Prudential Supervision of CIFs of 2021 (165(I)/2021). This prudential framework addresses the specific vulnerabilities and risks inherent to investment firms by means of proportionate and appropriate prudential arrangements. Also, the IFR permits a transitional period of five years, until the 26th of June 2026, for certain of the enhanced capital requirements.

The current regulatory framework comprises of three pillars:

- Pillar I covers the calculation of the Capital Adequacy Ratio and Liquidity Requirement.
- Pillar II covers the Supervisory Review and Evaluation Process (‘SREP’), which assesses the Internal Capital Adequacy and Risk Assessment Process (the “ICARA”) and provides for the monitoring and self-assessment of an institution’s capital adequacy and internal processes.
- Pillar III covers external disclosures that are designed to provide transparent information on regulatory capital adequacy, risk exposures and risk management and internal control processes.

The Company has prepared its first ICARA based on the audited financial statements of 2023 and it currently in process of its update with the audited figures of 2024.

Operating environment of the Company

The year was characterized by the continuation of the invasion of Russia into Ukraine and the war of Israel against Hamas. The company has evaluated its exposure on the Russian market and had identified no direct or indirect relationships or transactions that may affect the company’s reputation or may lead to non-compliance for the Regulators money laundering directives.

During the year the Company has continued enhancing its internal procedures over compliance and prevention of money laundering and terrorist financing.

The war started by Israel against Hamas during 2023 and still ongoing is consider riskier for Cyprus since it is an activity taking place very close to and directly affects the island and the Company even though had no income from that area.

Management will continue to monitor the situation closely and will assess the need for further actions if needed and in case the crisis becomes significantly prolonged.

Investment Policy & Environmental, Social and Governance risks

The Company is not considered as significant CIF given that its total on and off-balance sheet assets are on average less than EUR 100 million over the four-year period immediately preceding the given financial year. Therefore, the Company has no obligation to disclose any information relating to IFR Article 52 (Investment Policy) and Article 53 (Environmental, Social and Governance risks).

Scope of the Disclosures

Prochoice Chrimatistiriaki Ltd does not have any subsidiaries and therefore the information presented in this report relates solely to the Company.

2. Governance – Board and Committees

2.1 The Board

The Board of Directors, which consists of both executive and non-executive independent members, has overall responsibility for the establishment and oversight of the Company's risk management and governance framework. The following are part of the responsibilities of the Board of Directors in relation to risk management:

- Approve and oversee the implementation of the Company's strategic objectives, risk strategy and internal governance.
- Monitor and periodically assess the adequacy and the implementation of the Company's strategic objectives in the provision of investment services and activities and ancillary services the effectiveness of the CIF's governance, arrangements and the adequacy of the policies relating to the provision of services to clients and take appropriate steps to address any deficiencies.
- Oversee the process of disclosure and announcements and must be responsible for providing effective supervision of Senior Management.
- Monitor the internal control mechanisms of the Company to enable prevention of activities outside the scope and strategy of the Company and the prevention of any unlawful transactions, the identification of risks, and the timely and adequately flow of information.
- Assess if the Company becomes, at any point in time, significant in terms of size, internal organization and the nature, scope and complexity of its activities.
- Approve internal documents, policies and procedures.
- Ensure the appropriate design, adoption, and implementation of the Company's ICAAP.
- Establishes the company's parameters for risk appetite by providing strategic leadership quittance.
- Reviewing and approving annual budgets and forecasts under different risk scenarios.
- Reviewing and monitoring the company's risk performance

The Board has overall responsibility for the business. It sets the strategic aims for the business, in line with delegated authority from the shareholder and in some circumstances subject to shareholder approval, within a control framework, which is designed to enable risk to be assessed and managed.

As at 31 December 2024 the Board comprised of 2 executive directors and 4 non-executive directors.

2.2 Board - Diversity Policy

It is the Board's responsibility to identify, evaluate and select candidates for the Board of the Company and thus a predetermined procedure is followed for such a selection.

Specifically, the members need to have integrity and honesty, the necessary qualifications, education, skills and experience in order to perform their duties. They also need to have financial knowledge, as well as experience relevant with the Company's activities in general and with financial matters. Part of the duties of the Board of Directors is to find and evaluate, based on the above-mentioned criteria, possible candidates who would be able to respond to the demands of the Board of Directors of the Company.

The Company recognizes the benefits of having a diverse Board of Directors and as such ensures that they have a suitable and diverse composition, combining individuals who have experience and knowledge of the Group, its businesses and the financial sector in general, with others who have training, skills, knowledge and expertise in other areas and sectors that enable the right balance to be attained in the composition of corporate bodies, to improve operation and performance of their duties.

2.3 Number of directorships held by members of the Board

The table below provides the number of directorships a member of the management body of the Company holds at the same time in different entities, including Prochoice Chrimatistiriaki Ltd. Directorships in organizations which do not pursue predominantly commercial objectives, such as non-profit-making or charitable organizations, are not taken into account for the purposes of the below. For the purposes of the below, executive or non-executive directorships held within the same group count as single directorship.

Table 1: Number of directorships held by the Company's Board members including position in Prochoice Chrimatistiriaki Ltd

Name of Director	Position within Prochoice Chrimatistiriaki Ltd	Number of Directorships	
		Executive	Non-Executive
Antonis Antoniou	Executive Director	1	-
Andreas Leonidou	Executive Chairman	2	1
Stelios Koiliaris	Non-Executive Director	3	1
Stefanos Hailis	Non-Executive Director	1	1
Sergios Sergiou	Non-Executive Director	-	1
¹ The information presented in this table is based only on representations made by the directors of the Company as at the time of preparation of this report.			

2.4 Structure and Organization of the Risk Management Framework

The Company's Risk Management framework aims to establish, implement and maintain adequate policies and procedures designed to manage any type of risks relating to the Company's activities. The current Risk Management framework sets the process applied in the activities of and across the Company, designed to identify potential events that may affect its business, to manage risks to be within its risk appetite, and to provide reasonable assurance regarding the achievement of its mission and its objectives. Within the Company's Risk Management framework there are structures that provide for the validation role of Risk Management, Compliance and Internal Audit functions. Even though these are distinct functions and they perform specific duties in the overall Risk Management framework, there is a considerable degree of overlap and intersect present.

The Company has designed its risk management framework to be proportionate to the scale, nature and complexity of its business, and is comprised of the following components:

- Board of Directors
- Investment Committee
- Risk Management Function
- Compliance and Anti-money Laundering Function
- Accounting and Finance
- Internal Audit (Outsourced)

Board of Directors

As described in paragraph 2.1 the Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management and governance framework.

Investment Committee

The Company has established an Investment Committee which as at 31st December 2024 consisted of two members, the main responsibility of which is to set the investment policy of the Company according to the market environment at the time and formulates the framework in which the asset management and client investment advisory functions of the Company should operate. The Committee has an advisory and supervisory character in relation to matters that directly or indirectly are related to the investment activities carried out by the company.

The Investment Committee during 2024 has met three (3) times.

Risk Management Function

The Risk Management function adapts and maintains specific policies and risk management procedures that enable the identification of the Company's risks. The Risk Management function is independent from any other units with administrative power and reports to the Board of Directors and the Investment Committee.

Its responsibilities include:

- Providing advice to the Board with regards to the risk management policy of the Company and to ensure that any rewards are weighted by their associated risks.
- Advise various Company business units on risk-return profiles associated with their operations and asset classes they are dealing with. Monitoring the implementation of the Company's agreed policies as defined by the Board of Directors and the various CySEC regulations.
- Develop and improve risk measuring and monitoring mechanisms.

- Reviewing and updating the Company's risk management policies and procedures.
- Assess and report to the Board and the Investment Committee all data, events, actions and new expansion or entry to new investments that can expose the Company to any type of risk, which will have an impact to the Company's operating functions.

Compliance and Anti-money Laundering Function

The Compliance function is an independent function. The Company has a Compliance Officer and Anti-Money Laundering Officer that has the responsibility for ensuring that structures and procedures are in place to ensure compliance with laws and regulations, which relate to carrying out business transactions, internal policies and procedures as well as fostering standards of behavior to protect and enhance the reputation of the Company. He/She reports primarily to the Company's Board of Directors and directly to the Managing Director.

Accounting and Finance Department

The Accounting department is responsible for the management accounts which are feeding into the Capital Adequacy requirements monitoring and the preparation and timely submission of the relevant reports to the CySEC. Furthermore, is responsible for monitoring the Company's exposure to credit and market risks and for the safekeeping of clients' funds.

Internal Audit

The Internal Audit function is outsourced and is administratively independent from any other units of the Company and reports directly to the Board of Directors and the Audit Committee. It is responsible for conducting independent appraisals of the Company's activities, functions and operations to ensure that an adequate framework of internal controls has been established and is operating effectively.

The Internal Auditor is responsible for ensuring that Management has established a framework of specific internal controls, accounting controls and operating procedures, commensurate with exposures to risk and to ensure compliance with the overall guidance of Board-approved policies and applicable regulations. The efforts of the Internal Auditor are augmented through the use of audit resources obtained from third-party vendors in the area of information technology.

2.5 Board Risk Statement

The principal activity of the Company is the provision of financial services within the meaning and terms of the Investment Services and Activities and Regulated Markets Law of 2007 (the "Law"), as amended. As a result of these activities the Company faces a variety of risks. Therefore, the Company's Risk Management framework aims to establish, implement and maintain adequate policies and procedures designed to manage any type of risks relating to the Company's activities. The current Risk Management framework sets the process applied in the activities of and across the Company, designed to identify potential events that may affect its business, to manage risks to be within its risk appetite, and to provide reasonable assurance regarding the achievement of its mission and its objectives. The Risk Management function ensures that relevant controls are put in place to evaluate the effectiveness and the practical implementation of measures to mitigate and manage risks.

3. Current Regulatory (Prudential) Framework

In accordance with Regulation (EU) No. 2019/2033 (the “Investment Firms Regulation”, “IFR”) and Regulation (EU) No. 2019/2034 (“Investment Firms Directive”, “IFD”), Prochoice Chrimatistiriaki Ltd (“the Company” or “Prochoice”) is obliged to disclose information regarding its risk management, capital structure, capital adequacy, its risk exposures as well as the most important characteristics of the Company’s corporate governance, including its remuneration system. The core aim of the IFR is to introduce more proportionate rules for all MiFID II investment firms in relation to capital, liquidity and other risk management requirements, while ensuring a level-playing field between large and systemic financial institutions.

The IFR categorizes Investment Firms (IF’s) into three categories depending on their business activities, systemic importance, size, and interconnectedness. Each IF class is subject to a different set of prudential requirements, with the systematically important and larger firms following the CRR/CRD regime. In particular, IFs will now be categorized into the following classes:

- **Class 1 IFs (remain subject to CRR and CRD):** Large IFs that exceed certain criteria and need to be reclassified as credit institutions, plus:
 - **Class 1a:** Not reclassified as credit institutions, but above certain criteria and/or are categorized Systemically important IFs to the country (“O-SIIs”) and subject to CRR.
 - **Class 1b:** Not-Systemic Large IFs, but which elect to be subject to the CRR (if they are part of a group containing a bank that is subject to consolidated supervision under CRR).
- **Class 2 IFs (subject to new IFR/IFD):** IFs exceeding the categorization thresholds for Small and Non-interconnected Investment Firms.
- **Class 3 IFs (subject to new IFR/IFD, BUT with exemptions):** Small and Non-interconnected Investment Firms.

Prochoice falls into the Class 2 category and is subject to the IFR/IFD framework. The minimum regulatory capital requirement for Prochoice will be the greatest of:

- A **Permanent Minimum Capital Requirement** of €150K;
- A **Fixed Overhead Requirement** at 25% of the firm’s fixed overheads in the previous year; and
- A **K-factors Requirement**, which is based upon nine risk exposure indicators (“K-factors”) which are designed to measure operational risk to customers, counterparty credit risk, trading book market risk, and concentration risk (in the trading book and securities financing type of transactions including REPOs).

The IFR regulatory framework is comprised of three main pillars:

- a) **Minimum Own Funds Requirement:** covers the calculation of the minimum capital needed to be allocated depending on the IF’s class categorization (i.e., calculation of Fixed Overhead Requirement, Permanent Minimum Capital requirement or k-factors requirement) and liquidity requirements;

- b) **Internal Capital and Risk Assessment Process (ICARA):** covers the Supervisory Review and Evaluation Process (“SREP”), which assesses the Internal Capital and Risk Assessment Process (“ICARA”) and provides for the monitoring and self-assessment of the Company’s capital and liquidity adequacy and internal processes; and
- c) **Public Disclosures:** covers external/public disclosures that are designed to provide transparent information on regulatory capital and liquidity adequacy, own funds requirements, risk management objectives and policies, internal governance arrangements, remuneration policy and practices, investment policy (if applicable) and environment, social and governance risks (if applicable).

4. Own Funds

The Company is required to hold Own Funds in sufficient quantity and quality in accordance with the IFR & IFD prudential framework, which sets out the characteristics and conditions for Own Funds.

The primary objective of the Company’s capital management is to ensure that the Company complies with externally imposed capital requirements and that the Company maintains healthy capital ratios in order to support its business and to maximize shareholders’ value.

As per the new rules, investment firms are required to maintain own funds consisting of the sum of their Common Equity Tier 1 capital, Additional Tier 1 capital and Tier 2 capital, and shall meet all the following conditions at all times:

- a) Common Equity Tier 1 Capital of at least 56% of Own Funds Requirements.
- b) Common Equity Tier 1 Capital and Additional Tier 1 Capital of at least 75% of Own Funds Requirements.
- c) Common Equity Tier 1 Capital, Additional Tier 1 Capital and Tier 2 Capital of at least 100% of Own Funds Requirements.”

The Own Funds of the Company consist solely of Common Equity Tier 1 Capital, which is made up of share capital, reserves (retained earnings and non-refundable advances) and audited Profit form current year.

Intangible assets and computer software are deducted from the Company’s Common Equity Tier 1 Capital.

Table 2 and Table 3 have been prepared using the format set out in the Commission Implementing Regulation (EU) 2021/2284 laying down implementing technical standards for the application of Regulation (EU) 2019/2033 with regards to supervisory reporting and disclosures of investment firms.

Table 2 presents the composition of the Company’s Own Funds as at 31st December 2024, while Table 3 indicates how these Own Funds reconcile with the Company’s audited Balance Sheet as of this date. As shown below, the Company’s Own Funds as of 31st December 2024 consisted solely of CET1 capital resources and amounted to €153K.

5. Principal Risks

5.1 Risk to Client

Risk to Client (“RtC”) is the risk covering the business areas of investment firms from which harm to clients can conceivably be generated in case of problems.

There are four K-factors under RtC:

- **K-AUM (Assets Under Management)** - K-AUM captures the risk of harm to clients from an incorrect discretionary management of client portfolios or poor execution and provides reassurance and client benefits in terms of the continuity of service of ongoing portfolio management and investment advice. The Company is not authorised for the Portfolio Management or Investment Advice investment services, and hence K-AUM is not applicable.
- **K-CMH (Client Money Held)** - K-CMH captures the risk of potential for harm where an investment firm holds the money of its clients, taking into account whether they are on its own balance sheet or in third-party accounts and arrangements under applicable national law provide that client money is safeguarded in the event of bankruptcy, insolvency, or entry into resolution or administration of the investment firm. As part of its business, the Company holds funds on behalf of its customers, and to this end, it is subject to the risk captured by this K-factor.
- **K-ASA (Assets Safeguarded and Administered)** - K-ASA captures the risk of safeguarding and administering client assets and ensures that investment firms hold capital in proportion to such balances, regardless of whether they are on their own balance sheet or in third-party accounts. During the year under review, the Company provided the ancillary service of safekeeping and administration of Financial Instruments for the account of Clients, hence it is subject to this k-factor.
- **K-COH (Client Orders Handled)** - K-COH captures the potential risk to clients of an investment firm which executes orders in the name of the client, and not in the name of the investment firm itself. The Company executes its clients’ orders, therefore the risk reflected by this K-factor applies though is immaterial.

K-CMH

The Company, when holding funds belonging to Clients, must have in place adequate arrangements to safeguard the Clients' rights and, except in the case of credit institutions, prevent the use of Client funds for its own account.

K-ASA

The Company, when holding Financial Instruments belonging to Clients, must have in place adequate arrangements so as to safeguard Clients' ownership rights, especially in the event of the Company's insolvency, except with the Client's express consent.

K-COH

Where the Company provides the investment service of execution of orders on behalf of Clients it shall implement procedures and arrangements which provide for the prompt, fair and expeditious execution of its clients' orders, relative to other clients' orders or its trading interests.

5.2 Risk to Market

Risk to Market ("RtM") is the risk that an investment firm poses to the financial markets it operates in and the counterparties it trades with.

- **K-NPR (Net Position Risk)** - K-NPR is based on the rules for Market risk for positions in interest rate instruments, equities, foreign exchange and commodities in accordance with Regulation (EU) No 575/2013. Therefore, K-NPR captures the market risk, which is defined as the risk that the value of an investment will decrease due to changes in market factors (such as currency fluctuations, changes in interest rates and movements in equity and commodity prices). The Company's exposure to Market risk at any point in time depends primarily on short-term market conditions and client activities during the trading day. During 2024 due to the fact that the company cannot perform the investment activity of dealing for own account, it had no investments in bonds or shares in any stock market. The Company keeps mainly its accounts in Euro therefore no foreign exchange rate risk exists. As of 31 December 2024, the Company was not exposed to currency risk, and to this end this K-factor does not apply.
- **K-CMG (Clearing Margin Given)** - This is an alternative to K-NPR to provide for Market risk for trades that are subject to clearing as set out in Article 23 of IFR. CMG means the amount of total margin required by a clearing member or qualifying central counterparty, where the execution and settlement of transactions of an investment firm dealing on own account take place under the responsibility of a clearing member or qualifying central counterparty. This K-factor was not applicable to the Company for the year ended 31 December 2024.

5.3 Risk to Firm

Risk to Firm ('RtF') is the risk that an investment firm faces through its trading activity and market participation.

There are three K-factors under RtF:

- **K-TCD (Trading Counterparty Default)** - K-TCD captures the Counterparty Credit Risk arising from an investment firm's exposure to the default of its trading counterparties. In particular, TCD means the exposures in the trading book of an investment firm in specific instruments and transactions (includes positions with both clients and liquidity providers) giving rise to the risk of

trading counterparty default. Prochoice Chrimatistiriaki Ltd did not hold any derivatives and did not enter into any repurchase transactions, securities or commodities lending or borrowing transactions, long settlement transactions hence the Company does not face this K-factor.

- **K-DTF (Daily Trading Flow)** - K-DTF captures the Operational Risk related to the value of trading activity that an investment firm conducts. It reflects the risk of transactions that an investment firm enters through dealing on own account or executing orders on behalf of clients in its own name. This K-factor is applicable as at 31st of December 2024, though the Company's exposure to DTF is minimal.
- **K-CON (Concentration Risk)** - K-CON seeks to apply additional own funds requirements to manage concentration to a single counterparty / issuer of financial instruments or a group of connected counterparties / issuers to which an investment firm incurs Trading Book exposures, and which exceed prescribed limits. This K-factor does not apply to the Company.

K-DTF

All people involved in the operations are working between certain procedures that are approved by the board and everybody's work regarding company's operations including the execution of customers' orders is monitored by the risk management officer.

Also, the company has two different internet supplies to avoid any discontinuation of the operations. Contingency and recovery plans for core services, key systems and priority business processes have been developed and are revisited as part of existing management processes to ensure that continuity strategies and plans remain relevant. Awareness campaigns remain a critical tool in driving a business continuity culture across the company. The company will continue to enhance and develop operational resilience to meet evolving business priorities.

6. Minimum Capital Requirements

The IFR/IFD framework approach for calculating the Minimum Capital Requirements, dictates for Class 2 investment firms, to be derived by taking the highest of the Fixed Overhead Requirement ("FOR"), the Permanent Minimum Capital Requirement ("PMCR") and the K-factors that apply to each investment firm, according to Article 11 of IFR.

Fixed Overhead Requirement ("FOR")

The Company monitors its FOR at least on a quarterly basis. The Company complies with Article 13 of the IFR stating that the Company shall hold own funds of at least one quarter of the fixed overhead expenses of the preceding year. The Fixed Overheads Requirement as at 31st December 2024 amounted to €96K.

Permanent Minimum Capital Requirement ("PMCR")

The Company monitors its Own Funds on a continuous basis and ensures that they remain above the Permanent Minimum Capital Requirement of €150K, which corresponds to the initial capital that applies to the Company in accordance with Article 9 of the IFD.

The Company's K-factor requirement is calculated in accordance with Articles 16 through to 33 of the IFR. Table 10 below breaks down the Pillar I minimum capital requirement that the Company was required to hold as of 31st of December 2024.

Table 4-Minimum Capital Requirements

Minimum Capital Requirements		
K-Factor Requirement	K-Factors	31 December 2024 (€'000)
RisK-to-Client (RtC)	-	-
	2	2
	9	9
	0	0
RisK-to-Market (RtM)	-	-
	-	-
RisK-to-Firm (RtF)	-	-
	1	1
	-	-
Total K-Factor Requirement		12
Fixed Overhead Requirement – FOR		76
Permanent Minimum Capital Requirement – PMCR		150

Table 4 above shows that the PMCR of €150K is the highest amount of minimum capital requirement that the Company must hold at all times.

Table 5 below indicates that the Company has excess capital of approximately €3K above the Permanent Minimum Capital Requirement. This is reflected by a Capital Adequacy Ratio of 102,31%, which is above the minimum threshold of 100% set out in Article 9(1)(c) of IFR.

As at 31 December 2024, the Company's Capital Adequacy Ratio was marginally above the abovementioned 100% threshold set by the IFR. To this end, the Company's Board of Directors decided to start discussions for a potential increase of the share capital.

Table 5-Capital Excess/Ratio

11	(€'000)	Reference
Capital		
Common Equity Tier 1	153	
Additional Tier 1	-	
Tier 2	-	
Total Own Funds	153	<i>a</i>

Own Funds Requirement		
K-factor Requirement	12	b
Fixed Overhead Requirement	76	c
Permanent Minimum Capital Requirement	150	d
Minimum Own Funds Requirement	150	e = (higher of b, c, d)
Capital Excess/Ratio		
Capital Excess	3	a-e
Capital Ratio	102,31%	a/e

7. Liquidity risk

Liquidity risk arises when the Company, despite being solvent, cannot maintain or generate sufficient cash resources to meet its payment obligations as they fall due to counterparties that provide banking services to the company. This type of event may arise where counterparties who provide the company with funding withdraw as a result of generalized disruption in asset markets which results in normally liquid assets become illiquid. Liquidity risk exposure is present in various funding situations, but primarily in investments and lending activities.

The Company exercises all due skill, care and diligence in the selection, appointment and periodic review of the credit institution where the funds are placed.

Moreover, in addition to the Own Funds requirements, a Liquidity Requirement was introduced by the IFR according to which the Company is required to maintain liquidity levels equal to at least one third of its Fixed Overhead Requirement. As of the 31st of December 2024, the Company satisfied the Liquidity Requirement. The Company monitors the level of its liquid assets on at least a quarterly basis.

8. Compliance risk

Compliance risk is the risk of financial loss, including fines and other penalties, which arises from non-compliance with laws and regulations of the state.

The Company's approach to managing compliance risk is proactive and premised on internationally accepted principles of risk management. Company compliance supports business in complying with current and emerging regulatory developments, including money laundering and terrorist financing control, identifying and managing market abuse and mitigating reputational risk.

Compliance risk management is an independent core risk management activity overseen by the compliance officer. Sanctions imposed by the European Commission as well as all circulars issued by the CySEC have to be followed in everyday activities of the company.

9. Remuneration Disclosures

In accordance with the Regulation, the Company should disclose information about its Remuneration Policy and practices followed for those categories of staff whose professional activities have a material impact on its risk profile.

Due to its size and the principle of proportionality, which takes into account the scale, nature and complexity of activities of the Company, the Company considers all its employees as persons with material risk impact on the Company.

The Company's Remuneration Policy sets the foundations and principles for establishing remunerations within the Company, how the Policy should be applied and followed. The Company believes that remuneration should as far as possible to be individually designed and with encourage employees to perform according to the Company's goals, strategy and vision. The remuneration should also be gender-neutral and encourage employees to act according to the Company's values: simplicity, care and openness, since this is considered to be the foundation for a successful and long-term business. Further the total remuneration should be designed in a way that makes the Company attract employees with the needed skills within the existing margins of costs.

The Company's remuneration policy is set by the Board of Directors which monitors compliance with the Policy and reviews it once a year or at more frequent time as necessary.

Remuneration policies and practices implemented by the Company were intentionally simplified to the basic requirements of hiring and maintaining sufficiently professional personnel. For the time being it is based on fixed salaries. The Board of Directors considers such approach as the most practical on this stage due to the scale and complexity of its operations.

The Company's annual remuneration to management and staff as of 31st December 2024 is shown in the Table below.

Table 6- Quantitative information on remuneration

Annual Remuneration	31 st December 2024			
	€000			
	Number of beneficiaries	Fixed	Variable	Total
¹ Senior Management	2	81	0	81
² Other staff	3	64	0	64

Total	5	146	0	146
--------------	----------	------------	----------	------------

¹The category “Senior Management” includes the Executive Directors.

²The category “Other Staff” includes other members of the management.

During 2024, the Company did not pay or award any non-cash variable remuneration, deferred remuneration, severance payment, or any guaranteed variable remuneration. There were also no deferred remuneration or severance payments that were awarded in previous periods, and which have been paid out during 2024.

It should also be noted that as at 31/12/2024 the Company benefits from the derogation of Article 32(4) of IFD, given that the value of its on and off-balance sheet assets is on average equal to or less than €100 million over the four-year period immediately preceding the given financial year. Hence the following specific requirements of IFD Article 32 regarding variable remuneration do not apply:

- point (j) of paragraph 1 regarding the components of any variable remuneration in terms of instruments,
- point (l) of paragraph 1 regarding deferred variable remuneration over a three-to-five-year period depending on the business cycle of the investment firm, the nature of its business, its risks and the activities of the individual in question,
- third subparagraph of paragraph 3, that refers to discretionary pension benefits subject to a five-year retention period that should be held (for employees leaving the investment firm before retirement age) or paid (for employees reaching retirement age and retiring) in the form of specific instruments as per point j above.

Appendices

Appendix I – Main Features of Own Funds

Template EU IF CCA		Common Equity Tier 1 instruments
1	Issuer	Prochoice Chrimatistiriaki Ltd
2	Unique identifier (e.g. CUSIP, ISIN or Bloomberg identifier for private placement)	N/A
3	Public or private placement	Private
4	Governing law(s) of the instrument	Cyprus Law
5	Instrument type	Ordinary Shares
6	Amount recognised in regulatory capital (in EUR)	€ 852.000
7	Nominal amount of instrument	852.000
8	Issue price (in EUR)	€ 1,00
9	Redemption price	N/A
10	Accounting classification	Shareholders' equity
11	Original date of issuance	7/5/2008
12	Perpetual or dated	Perpetual
13	Original maturity date	No maturity
14	Issuer call subject to prior supervisory approval	N/A
15	Optional call date, contingent call dates and redemption amount	N/A
16	Subsequent call dates	N/A
	<i>Coupons / dividends</i>	N/A
17	Fixed or floating dividend/ coupon	N/A
18	Coupon date and any related index	N/A
19	Existence of a dividend stopper	N/A
20	Fully discretionary, partially discretionary or mandatory (in terms of timing)	N/A
21	Fully discretionary, partially discretionary or mandatory (in terms of amount)	N/A
22	Existence of step up or other incentive to redeem	N/A
23	Non-cumulative or cumulative	N/A
24	Convertible or non-convertible	Non-convertible
25	If convertible, conversion trigger(s)	N/A
26	If convertible, fully or partially	N/A
27	If convertible, conversion rate	N/A
28	If convertible, mandatory or optional conversion	N/A
29	If convertible, specify instrument type convertible info	N/A
30	If convertible, specify issuer of instrument it converts into	N/A
31	Write-down features	N/A
32	If write-down, write-down trigger(s)	N/A
33	If write-down, full or partial	N/A
34	If write down, permanent or temporary	N/A

35	If temporary write-down, description of write-up mechanism	N/A
36	Non-compliant transitioned features	No
37	If yes, specify non-compliant features	N/A
38	Link to the full term and conditions of the instrument (signposting)	N/A
